

Festoon String Lighting

Festoon

Perfect for any event, the Festoon is a decor string lighting system that replicates the look and feel of vintage event lighting. These lights can be programmed to run complex automated color changing programs or can be modified simply by remote control. From red to blue, changing colors is easy. With a click of the remote, it's done.

Both the string and individual bulbs are IP54 rated for temporary outdoor use so the colorful warmth of this effect can benefit events indoors or outdoors.

Above: Festoon has built-in automated programs that create complex looks in seconds.
